

Features	REDCap	Qualtrics	Oncore	Midas	Comments
Standard Compliance					
FDA CFR 21 Part 11 Valid /Capable?	X		X		Oncore: full compliance relies on university policies
FDS CFR 21 Part 11					
MedDRA Coding?	X		X	X	Oncore: yes, but not set up this way, currently only the Cancer grading schema is loaded
WhoDrug Coding?	X		X		Oncore: yes, but not set up this way, currently only the Cancer grading schema is loaded
Support PHI	X		X	X	Qualtrics is S3 Data. You must have S4 Data to have PHI
Support NPHI	X	X	X	X	
Design					
Designed for Surveys?	X	X			Midas is not designed for surveys. It is designed to capture Quality and other review activities associated with a patient encounter
Designed for Clinical Data Management?	X		X		
Integrate survey and eCRF in the same study?	X				
Designed with longitudinal studies in mind?	X	X	X		
Made for Large studies?	X	X	X		
Made for Multi-Site Studies?	X	X	X		
User-generated, full-featured forms?	X	X			
Easy to enter / change data?	X	X	X		
Existing Instrument Library?	X	X	X		
Calculated value fields?	X	X	X		
Built-in Validation?	X	X	X		
Record Locking?	X	X	X		
Data Quality/ Queries/ Monitoring built-in?	X	X	X		
No Project/Study Limits	X	X	X		
Customized User Right	X	X	X		
Customized Font	X	X			
Text to Speech	X	X			
Display Logic Options (Phone, Computer Tablet)		X			Screen Reader for Qualtrics
Confirmation Emails from Surveys	X	X			
Randomization	X	X	X		
Field Types: Signature, Note, Text, Radio, Multi Choice, Dropdown, graphic, Matrix Table, Side by Side, Calculated, Uploads and Downloads, SQL, Sliders, hot spot, drill down, heat map	X	No Signature (Please see Comment)	No SQL, Signature, Sliders, Downloads, Graphics		Qualtrics: The signature question can be requested for \$1000 per individual user or \$10,000 for the university license. So far, we did not have enough requests to include this feature into the university license.
