

Navigating the Office of Research

Quick Resource Guide

Proposals, Awards and Funding Opportunities

Do you need assistance submitting proposals, managing awards or finding funding?

osp.osu.edu

The **Office of Sponsored Programs (OSP)** supports the development, implementation and coordination of sponsored research at the university, from proposal development to project closeout. OSP promotes electronic research administration, responsible stewardship of funds and sound management practices. OSP staff will assist you with the preparation and submission of proposals to funding agencies, negotiate agreements that protect your interests and the university's interests, manage your projects and make sure that your research is compliant with sponsor guidelines and university policies. OSP also provides the fiscal, purchasing and reporting support needed for your sponsored projects.

osp.osu.edu/funding

The Office of Research can help match your funding needs, internal and external, to available funding opportunities. Information on special funding opportunities (limited submissions, prizes, awards) is also available.

Animals, Biosafety and Human Subjects

Does your research involve animals, biohazards or human subjects?

orrrp.osu.edu

The **Office of Responsible Research Practices (ORRP)** provides administrative support to the university research community and the review boards responsible for research oversight. ORRP staff will help you navigate the regulations governing research through education and quality improvement initiatives designed to facilitate research, improve efficiencies and ensure regulatory compliance.

- Animal Care and Use: The Institutional Animal Care and Use Committee (IACUC) reviews and oversees the responsible use of animals in university research and instructional activities. orrrp.osu.edu/iacuc
- Biosafety: The Institutional Biosafety Committee (IBC) reviews and oversees research involving biohazards and recombinant or synthetic nucleic acid molecules. orrrp.osu.edu/ibc
- Human Subjects: The Institutional Review Boards (IRBs) review and oversee research involving human subjects. orrrp.osu.edu/irb

ular.osu.edu

University Laboratory Animal Resources (ULAR)

facilitates the humane care and use of animals in biomedical research and teaching at Ohio State and also provides veterinary services. ULAR staff members oversee compliance with federal regulations and guidelines related to animal use and promote the responsible use of animals for the benefit of society.

Research Compliance and University Policies

Is your research compliant with federal, state and local regulations and university policies?

orc.osu.edu

The **Office of Research Compliance (ORC)** supports and promotes ethical research practices at Ohio State. ORC coordinates institution-wide research compliance policy and procedure development to ensure that the university is compliant with federal, state and local regulations as well as university policies. ORC also manages the university's conflict of interest disclosure process, export control regulations and misconduct in research and scholarly activities.

orc.osu.edu/resources

The Office of Research maintains a website of policies related specifically to research.

Educational and Training Opportunities

Do you need help navigating the research administration process?

research.osu.edu/researchers/training

Educational and training opportunities are available to help you better understand research requirements, policies and administrative processes. Select the training format that best fits your needs and schedule.

Industry Collaborations

Are you interested in building research collaborations with industry?

ilo.osu.edu

The **Industry Liaison Office (ILO)** helps industry leaders connect with faculty and students to establish research collaborations that bring value to all participants. The ILO shares in the responsibility to create and manage Ohio State's external collaboration strategy.

Proposal Development

Do you need help developing or managing a high-value research proposal?

The **Proposal Development Office** works with researchers and university leadership to plan and develop strategic, high-value proposals. We profile potential sponsors; identify new opportunities; assess competitors; and define win strategies.

STEMM Initiatives

Are you looking for information about recruitment or retention of women and minority faculty?

stemm.osu.edu

The **Office of Gender Initiatives in STEMM (GI-STEMM)** facilitates the recruitment, retention and advancement of women faculty members from diverse populations in STEMM disciplines.

Undergraduate Research Office

Are you looking for students to assist you with your research?

undergraduateresearch.osu.edu

The **Undergraduate Research Office (URO)** provides a central focus for coordination of opportunities available for undergraduate students to become involved in Ohio State research. The URO offers workshops and peer mentoring.
